EXPERIENCE

Web Developer — TeqTop

2024 – Present

- Developing and maintaining client websites across Joomla, WordPress, and Shopify platforms.
- Performing Joomla migrations (3 to 6), resolving extension compatibility and post-migration issues.
- Building custom Joomla modules, components, and theme overrides using Joomla MVC.

Web Developer — Webastral Infosystems / HOBA TECH LTD

2022 – 2024

- Developed and maintained production websites using WordPress, Joomla, and WooCommerce.
- Built subscription-based systems, payment gateway integrations, and automated workflows.
- Integrated ActiveCampaign automation and email workflows for user management.

PROJECT HIGHLIGHTS

Grasshopper Soccer — Technical Lead

grasshoppersoccer.com.au — Joomla, Hikashop, CRM Integration

- Migrated website from Joomla 2.9 to Joomla 6.
- Customized Hikashop component as per business requirements.
- Integrated website with CRM system; ensured user order data is synced and stored properly.

- Built dynamic modules to handle franchise-wise data display and user interaction.
- Worked on performance and functionality improvements.

CF Indicators — Senior Developer

camelfinance.co.uk — WordPress, MemberPress, Razorpay, PayPal

- Fully customized MemberPress subscription system by overriding plugin files.
- Developed custom Razorpay payment gateway for Indian users; customized PayPal Standard gateway.
- Implemented automatic subscription cancellation and webhooks for real-time payment updates.
- Platform allows users to purchase subscriptions and access premium trading content.
- Developed custom hooks and filters in MemberPress; debugged and resolved payment-related issues.

Hoba Tech — Senior Developer

hoba.tech — WordPress, WooCommerce, ActiveCampaign, LearnDash, BuddyBoss

- Worked on WooCommerce store for selling online books with subscription-based access for premium content.
- Integrated ActiveCampaign automation and created automated email workflows based on course progress.
- Integrated and configured LearnDash LMS for course management; created custom templates for courses, lessons, and topics.
- Developed custom BuddyBoss add-ons including Poll Add-on.
- Managed forums with customizations using bbPress.

Shopify Zion Cases — Senior Developer

zioncases.com — Shopify

- Customized product variant system (color/design customization by users).
- Improved UI/UX for product customization; optimized menu structure and landing pages for conversions.
- Worked on speed optimization achieving 90+ score.
- Integrated and optimized third-party apps and tracking tools for better performance insights.

Joomla Projects

- Dunnings (dunnings.com.au) — Built site from Figma to Joomla CMS.
- Rotomation (rotomation.com) — Fixed forms (BreezingForms + JavaScript) and completed content fixes.
- Unsolved Hunts (unsolvedhunts.com) — File upload, membership features, custom component work; Figma-to-Joomla 5 build.
- Routys Plumbing (routysplumbing.com.au) — Migrated Joomla 3 to Joomla 5.
- WAPJA (wapja3.joomstore.com.au) — Migrated Joomla 4 to 5 and remediated incompatible components.
